## Case Study

85

Company Drivers

\$255,000

1<sup>st</sup> Year Fleet Savings

4.1¢

Per Mile Driver Raise

\$3,000

Fleet Savings Per Driver

20 Days

Program Fully Implemented

Truckers designed it, tax pros built it, your drivers want it. Our cloud-based FLEETS mobile app platform enables motor carriers to implement an IRS-compliant fleet per diem plan that will save a motor carrier thousands per driver and:

- Enhance driver recruiting & retention
- Raise employee driver take-home pay
- Streamline tax compliance
- Eliminate the need to retain ELD backups for 3 years

**IRS-Compliant:** Per Diem Plus® is the only IRS-compliant replacement for ELD backups to prove trucker per diem. The app applies IRS-established Special Transportation Industry per diem rules for travel in the USA and Canada for solo and team drivers.

**Fully Automated:** Drivers have more important things to do than “play with an app”. We automatically track each qualifying day and partial day of travel away from home. Fleet per diem reports are sent automatically based on your payroll schedule.

**GPS-Based Tracking:** Per Diem Plus® utilizes a mobile device’s GPS to establish IRS-required “time, date and place” substantiation to prove away-from-home travel.

**Proven:** Drivers have logged millions of miles using Per Diem Plus®! Join those that value their time, love to eliminate inefficient paperwork, and want to simplify tax compliance and save money.

**Easy Setup:** An IRS-compliant mobile application platform that allows for rapid deployment with minimal investment in dollars and/or IT resources.

**Easy to Use:** Web services interface that allows non-technical users to manage individual and team drivers operating both ELD-exempt and non-exempt vehicles.

**Scalable:** Whether 5 or 5000 trucks, our secure cloud-based platform will meet the growing needs of your fleet.

**Data Plan Friendly:** An average driver on the road for 25 days will use less than 100MB per month.
