Truckers designed it. Tax pros built it. It takes minutes to set up Per Diem Plus Fleets – Owner Operators, an automated, IRS-compliant, customizable per diem solution for single-vehicle operations.

**IRS-Compliant:** Per Diem Plus® is a proprietary software application that was designed by truckers and built by tax pros. It is the only IRS-compliant, mobile-enabled application for iOS and Android that automatically tracks each qualifying day of travel in the USA & Canada and replaces ELD backups to substantiate away-from-home travel for solo and team drivers.

**Fully Automated:** You have more important things to do than “play with an app”. We automatically track each qualifying day and partial day of travel away from home.

- Eliminate the need to retain ELD backups for 3 years to substantiate per diem
- Native Android & iOS Mobile App
- Supports solo and team drivers with single user login
- Custom features:
